

Biological Mosquito
Larvae Control

DUNKS[®]
Kills Mosquitoes
Before They're Old Enough To Bite![®]

ACTIVE INGREDIENT: *Bacillus thuringiensis* subspecies israelensis strain **SUM-6218**, solids, spores, and insecticidal toxins * 10.31%
OTHER INGREDIENTS: 89.69%
TOTAL 100.00%
*Potency: 722 *Aedes aegypti* Units per milligram product.
The percent active ingredient does not indicate product performance and potency measurements are not federally standardized.

Can Be Used In Plant and Fish Habitats
Place in the Following Contained Standing Water Sites: Flower Pots • Funeral Urns • Gutters • Rain Barrels • Discarded Tires • Woodland Pools • Catch Basins • Roof and Street Gutters • Storm and Flood Water Retention Ponds • Bird Baths • Tree Holes • Unused Swimming Pools • Animal and Livestock Watering Troughs • Aquaponics • Hydroponics • Agricultural Crop Irrigation water • Rice fields • Pastures, and other water habitats where mosquito larvae occur
In New York State, For Use in Containerized Waters with no Outflow to the Natural Environment

DUNKS®

**Kills Mosquitoes

Before They're Old Enough To Bite!

**For use on mosquito larvae

Biological Mosquito Larvae Control

For Prevention and Control of Mosquito Larvae, Place DUNKS® Only in the Following Contained Standing Water Sites:

- Flower Pots and Saucers • Funeral Urns • Gutters • Rain Barrels Used to Irrigate Plants and for Fish • Discarded Tires
- Woodland Pools • Small Marshes • Lake Perimeters • Catch Basins • Roof and Street Gutters • Storm and Flood Water Retention Ponds • Plant and Fish Water Gardens and Ponds • Fish Farms • Bird Baths • Tree Holes • Unused Swimming Pools (Above and In-Ground) • Standing and Irrigation Water in Greenhouses • Sewage Ponds • Roadside Ditches
- Cisterns and Water Supply Tanks • Animal and Livestock Watering Troughs • Aquaponics • Hydroponics
- Agricultural Crop Irrigation water • Pastures, and other water habitats where mosquito larvae occur

Can Be Used In Plant and Fish Habitats

In New York State, For Use in Containerized Waters with no Outflow to the Natural Environment

FIRST AID	
IF INHALED:	• Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. • Call a poison control center or doctor for further treatment advice.
IF IN EYES:	• Hold eye open, and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
HOT LINE NUMBER Have the product container or label with you when calling a poison control center or doctor or when going for treatment. For non-emergency information concerning this product, call the National Pesticide Information Center (NPIC) at 1-800-858-7378 (NPIC Web site: www.npic.orst.edu). For emergencies, call your local poison control center at 1-800-222-1222.	

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if inhaled. Causes moderate eye irritation. Avoid breathing dust. Avoid contact with eyes or clothing. Remove and wash contaminated clothing before reuse. Wash thoroughly with soap and water after handling and before eating, drinking, and chewing gum, using tobacco, or using the toilet.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. In New York State, For Use in Containerized Waters with no Outflow to the Natural Environment. Do not apply directly to treated, finished drinking water reservoirs.

PRODUCT INFORMATION

DUNKS® are formulated to release effective levels of *Bt israelensis* (*Bti*) for a period of 30 days under typical conditions. The floating action of DUNKS® will ensure that *Bti* is released at the surface and that it also gradually settles to the bottom.

DUNKS® can be used in mosquito breeding areas as specified on this label. To prevent DUNKS® from being flushed out of certain treatment sites, they can be anchored using a string tied through the hole in the center or staked in place with a small stick.

DUNKS® can also be used for pre-flood treatment. If DUNKS® are applied to dry areas, which are known or thought to become mosquito breeding sites when flooded, including temporary woodland pools and abandoned swimming pools, they will float to the surface when flooding occurs and start releasing *Bti*. Alternate wetting and drying will not reduce their effectiveness.

APPLICATION INSTRUCTIONS

MOSQUITO LARVAE

Flooded Mosquito Larval Breeding Sites (Outdoor Use): Apply DUNKS® to the sites listed on this label and according to the dosage table. In highly polluted water with a high organic content, such as sewage ponds, the application rate can be increased to as much as four (4) times the normal dosage based upon evaluation by the user of water organic content and/or seeing mosquito larvae in the water.

When mosquito larval populations are high, aquatic vegetation dense, or the water highly polluted at the time of DUNKS® use pre-treatment with Summit® *B.t.i.*, Granules or MOSQUITO BITS® is suggested. DUNKS® will then suppress mosquito larval development for up to 30 days. Some mosquito larvae that hatch after DUNKS® application may partially develop before dying. Allow a minimum of 48 hours for control.

Flooded Mosquito Larval Breeding Sites (Indoor Use): For use in areas that collect water from time to time, such as elevator shafts, basements that flood, sump pump wells and any drainage areas with standing water or subject to flooding within buildings. Apply DUNKS® according to the dosage table.

Pre-Flood Treatment: DUNKS® can be applied to the sites listed on this label when they are dry and in anticipation of them becoming flooded after rain. Use the correct amount of DUNKS® according to the dosage table.

Evaporative Coolers: Apply one (1) DUNK® per 100 square feet of cooler box. For smaller coolers, refer to the dosage table for the appropriate application rate.

DOSAGE TABLE

Surface area of standing water	0 to 25 square ft.	>25 to 50 square ft.	>50 to 75 square ft.	>75 to 100 square ft.
Use Quantity	1/4 Dunk®	1/2 Dunk®	3/4 Dunk®	1 Dunk® per 100 sq. ft.

STORAGE AND DISPOSAL	
Do not contaminate water, food, or feed by storage or disposal.	
PESTICIDE STORAGE:	Store DUNKS® in closed container with product labeling. Store in cool, dry, and well-ventilated place inaccessible to children and pets.
PESTICIDE DISPOSAL AND CONTAINER HANDLING:	Nonrefillable container. Do not reuse or refill this container. IF EMPTY: Place in trash or offer for recycling, if available. IF PARTLY FILLED: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
